## **MMWEC TO HOLD COMMUNITY MEETING AND INPUT SESSION**

PEABODY, June 16, 2021 – Massachusetts Municipal Wholesale Electric Company (MMWEC) and the project participants have announced plans for a community meeting to share information with the public on Project 2015A and solicit feedback.

The meeting format will include a presentation by MMWEC - as well as municipal light plant officials and subject matter experts - on its investigation into alternative sources, followed by a Q&A. Masks are mandatory and will be provided.

As the state's not-for-profit agency for municipal light plants in Massachusetts, MMWEC assists the Massachusetts municipal light departments in developing a diverse resource mix while they serve their load and meet capacity requirements in the New England market. As a capacity resource, Project 2015A - MMWEC's proposed plant in Peabody - is expected to run just 239 hours per year, producing fewer emissions than 94 percent of similar resources in the region, and will help its participating municipal light plants maintain stable rates for their customers.

**Who:** Massachusetts Municipal Wholesale Electric Company

**What:** **Public Meeting on Project 2015A**

**When:** Tuesday, June 22nd  
6:30 PM EST

**Where:** [The Peter A. Torigian Senior Center](#)  
75R Central Street, Peabody

More information about Project 2015A can be found at [www.project2015A.org](http://www.project2015A.org).

### **About MMWEC**

MMWEC is a non-profit, public corporation and political subdivision of the Commonwealth of Massachusetts, created by an Act of the General Assembly in 1975 and authorized to issue debt to finance a wide range of energy facilities. MMWEC provides a variety of power supply, financial, risk management and other services to the state's consumer-owned municipal utilities. It has 20 municipal utility members and 28 project participants. As one of 83 public power joint action agencies in the United States, MMWEC uses the strengths of working together, greater efficiency and economies of scale to help its members provide superior service at a low cost.
